

Advanced Squad Leader

updated 12 March 2023

PLEASE READ BEFORE BUYING

Most of the OOP games are very limited in quantity...so first come, first served.

There may be more than one copy of the game in stock but only one is shown. The lowest priced game is always shown first - when that game is sold, the next higher (or same) priced game will be listed.

Prices do not include shipping and insurance. The shipping and (optional) insurance costs you pay are the exact amounts or less. If you choose not to pay for the optional carrier (Post Office, FedEx, etc.) insurance, it is your risk if the shipment is lost or damaged. There is no handling charge.

If you do not agree with our policies, please do not buy anything.

Refund Policy

We do not accept returns. We do not give refunds for any reason except for refunding any paid shipping cost that is in excess of the actual amount needed.

Please make sure of what you want to buy. If you have questions about a game, check out the publisher's website or:

<https://www.desperationmorale.com/> for roleplaying games

<https://boardgamegeek.com/> for board games

All open games and books are carefully checked for completeness and condition. We have been in business for over 30 years - with 21 of those years selling on an on-line auction site - so we have a great deal of experience in accurately inventoring game components and grading games, books and other gaming items with a 100% positive feedback.

Since shrinkwrapped items cannot be inspected for completeness, these items are sold in 'as is' condition. Publishers take care to ensure that the games they sell are complete but, very rarely, a game may be missing an item – however, we are not responsible for replacing missing items and we will not give a refund (except for any excess shipping cost).

If you have any questions, please ask before buying.

General Condition Notes

All conditions may have an out-of-date price label (or label residue) attached to the plastic shrinkwrap, or to the game box, book, ziplock bag, envelope or other game container.

Any open game with one or more dice may not have the original die/dice that came with the game, but it will have the correct amount and type.

Any open game with one or more counter trays may not have the original trays that came with the game, but it will have the same number of trays.

Any open game with one or more ziplock bags (for storing some of the game components) may not have the original ziplock bags that came with the game, but it will have the same number of ziplock bags.

All open games are complete unless otherwise noted. Any non-game items, like advertising inserts, may or may not be with the item.

A lower condition rating may have positive and/or negative attributes of a higher condition rating.

Shrinkwrapped items cannot be inspected for completeness, so these items are sold in 'as is' condition.

Specific Condition Notes

Shrinkwrapped or Sealed

For everything except miniatures: mint condition in the publisher's original plastic shrinkwrapped or sealed by the publisher using something other than plastic shrinkwrap; some sealed items may have an attached card (used for hanging on a hook); there may be minor rub spots or scuffs on the shrinkwrap and/or box/folio/envelope; the plastic shrinkwrap may be torn, slightly separated or partially missing but this tear/separation/missing portion does not allow the item to be opened.

For miniatures: these are sealed in the publisher's original box, bag or blister; the bag or blister may be attached to a display card (for hanging on a hook) in original condition (i.e., no scotch tape); the card may be bent or creased.

Shrinkwrapped/Sealed items are sold in 'as is' condition.

Mint

For everything except miniatures: doesn't appear to be used; no major problems; there may be some shelf wear, like scuffing or nicks, and light marks on the item but these do not affect use or readability; any countersheets are either unpunched or there may be a few counters that have fallen off (unused) but all counters are present; any cards are not separated into singles (if originally attached to each other). If it's not published with a box, the item is stored in a ziplock bag or a archival-safe magazine bag with backer board.

For miniatures: the blister/bag is sealed/attached to the display card in original condition (i.e., no scotch tape) but a portion of the card may be torn or missing but this doesn't affect the miniature; the card may also be bent or creased.

Near Mint

For everything except miniatures: close to mint with some sign(s) of very light wear including very small creases on the spine; may have been read or gamed with but has little, if any, wear; may have small handwritten marks and/or underlining but these don't affect readability; some or all the counters are removed from the sheet; some or all the cards are separated.

For miniatures: the blister/bag is sealed/attached to the display card, but the card may be taped or have additional staples; it is complete; a portion of the card may be torn or missing but this doesn't affect the miniature; the card may also be bent or creased.

Excellent

For everything except miniatures: obvious use and handling with light wear; may have handwriting and/or highlighting that doesn't affect readability of game components; may have some minor repairs (e.g., small piece of scotch tape); small creases on the spine; may have rust stains on/near staples.

For miniatures: the box was opened and may be re-sealed with tape; the blister/bag may have been re-attached to the display card with tape or additional staples; a portion of the card or other container may be torn or missing but this does not affect the miniatures; the card may also be bent or creased.

Very Good

For everything except miniatures: used; handwriting and/or highlighting but these do not affect readability or use; may have repairs (usually using scotch tape); minor tears; dogeared pages; may have light stain(s); small bend(s) in cover; medium creases in spine.

Good

Well-used as a gamer's copy; handwriting, highlighting and/or stains but doesn't affect readability or use; may have small tears and other flaws which may be repaired; dogeared pages; medium to heavy creasing.

Fair

Very well used but complete and readable; heavy wear with major flaws such as large tears which may be repaired; stains; markings on pages; dogeared pages; heavy creasing.

Poor

Heavily used but complete and readable; very heavy wear with major flaws such as tears which may be repaired; stains; markings on pages; dogeared pages; very heavy creasing.

Pre-ordering ASL

You can pre-order most ASL products with us. Tell us what you want and how many. As each item arrives, you will be notified and have up to 30 days to pay. Paid pre-ordered items can be combined with other in-stock items (to save on the overall shipping costs) OR these can be reserved and sent with future pre-ordered items (for great savings for international shipments). After the item is available, the pre-order price no longer applies and the regular sale price kicks in.

Abbreviations:

BC	Blister Card [miniature(s) mounted on a card with see-through cover or blister]
NYA	Not Yet Available
OOP	Out of Print
OOS	Out of Stock (a blank in the Price column also means it is out of stock)
SRP	Suggested Retail Price
TBD	To Be Determined
UPC	Universal Product Code (aka bar code)
(year) or [year]	Year the item was copyrighted (some publishers may use the same title and item number so the copyright year is included for some items)

ASL Starter Kits & Packs

Those items which are designed to be used with the Starter Kit rules are highlighted in blue. Some ASL Journals, Operations magazines, Operations Special Issues and Special Ops magazines may also have Starter Kit scenarios, articles, etc. The non-ASLSK scenarios may require game components – counters, rules, overlays, game boards, etc. - that aren't available in the Starter Kits which could affect playability and/or balance (meaning that one side may have an unfair advantage).

BattleSchool

	<p>BattleDice are 6-sided, ball-cornered (rounded corners) precision dice. Basically, each side of a precision die is machined to an extremely close tolerance so that each side weighs the same as each of the other sides, which is why some people called these balanced dice. On the other hand, the sides of regular (i.e., non-precision) dice don't weigh the same since more material is removed from the sides of the higher numbered pips which makes those sides lighter. This usually results in a higher probability of the sides of the lower numbered pips (which are heavier) to stop on the bottom thus the higher numbered sides will be at the top. More info on these dice is at: http://asl-battleschool.blogspot.com/2011/06/what-precisely-are-precision-dice.html</p>	
	<p>The single Precision Backgammon Dice are in mint, unused condition. The other precision dice are in mint condition and sealed in the publisher's original, unopened, display packages. The silver and gold descriptions refer only to color, not to any precious metal.</p>

Vehicle Movement Point (MP) Dice

[these are made by several manufacturers]

1.95	<p>30-sided Die for Vehicle Movement Point (MP)</p>	3.00	mint
	<p>Colors available [tell us if you want a specific color]:</p>		
	<p>White numbers on body color: Black, Blue, Green, Orange, Purple</p>		
	<p>Black numbers on body color: White, Yellow</p>		

If you have a problem remembering the MP (where you left off) after your vehicle survives defensive fire, use a D30. The D30 marks your vehicle's MP stop point when your opponent decides to fire. The D30 has enough 'movement point' sides for almost every vehicle in ASL except a small hand full of AFVs and wheeled vehicles. For the ½ MP, I use a D6 with the D30. This way, you don't have to re-count the expended MP (which is really a pain and wastes gaming time).

View From The Trenches

[This most excellent ASL newsletter can be freely downloaded (as pdf) from <https://www.vfft.co.uk/vfftpdfs.asp> . The issues contain scenarios, campaign games, player aids, tactics, SASL, unmounted counters, AARs and many other articles.]
